

NOTICE

REGARDING APPLICATIONS FOR ATTORNEYS FEES

Honorable C. Kathryn Preston

January 1, 2013

Reminder to Attorneys and Attorney Office Staff: It is well established that tasks such as service of a motion, filing documents with the court, copying, faxing, etc., are clerical tasks and as such not compensable. Notwithstanding, numerous applications for compensation are being filed with entries for such clerical work and seeking compensation for time expended for that work. To date, when considering applications which include such tasks, the Court has attempted to estimate the amount of time expended and disallow the fees requested for those tasks.

Please be advised that commencing February 1, 2013 any applications for compensation requesting fees for tasks that are clerical in nature will be denied, without prejudice. If any pending application for compensation includes such entries, you may wish to consider filing an amended application.
